

Food Safety Policy

Tata Chemicals is committed to ensure that our everyday nourishing food products and food ingredients are safe and deliver consistently on our promise of high quality and the changing needs of consumers.

We achieve this by complying with all relevant laws, evolving regulations and establishing highest standards of excellence through improved quality management systems to guarantee product safety.

Food Safety Objectives

Build trust by offering products and services that exceed consumer expectations

Create value for consumers by implementing QMS platform across the value chain leading to reduced product incidents and achieving zero defects

Strive for consistent quality by periodically reviewing and auditing the quality and food Safety systems resulting in continuous improvements

Continuously improve skills and capabilities of internal and external resources and partners

Ensure compliance of internal and external food safety, regulatory and quality requirements
